LTI – OFCF metric

We determine the targets for OFCF according to the achievement of the three-year budget plan. TSR achievement is calculated based on the position in the selected TSR peer group.

The vesting of Vodacom shares is based on the following scale:

	OFCF	TSR relative to peer group
Threshold 40%	Three-year plan -20%	At 50 th percentile of the index
Target 100%	Three-year plan	Average of the 50 th and 75 th percentile of the index
Maximum 200%	Three-year plan +20%	75 th percentile of the index
